

WATER PERFUME

TaoDrop products are based on essences from nature, extracted by our Grass (France) perfume manufacturer who produces scents for the top perfumer and cosmetics around the globe.

All the materials used in our products are no animal sourced and no animal testing, children and baby safe, environmental friendly & ecological.

These natural scented essences could change the way we experience bathing. Just a few drops in the Jacuzzi, fountain, swimming pool, bath or hot-tub and like magic, the smell of chlorine disappears (without affecting its purifying abilities) leaving a fresh, natural scent instead (both in the water and on the skin of the person bathing).

TaoDrop products require no maintenance; oil and detergent free, Non-foaming, do not affect water balance, PH level or conductivity, they do not clog water filters and safe on all equipment and surfaces. The water perfumes compatible with Chlorine, Salt, Bromine, Ozone and other sanitizers.
